Can you please share how much you understand about the concept of accepting Jesus as your Savior and Lord, and what it means to live for Jesus? Where do you live at the present time and who lives in the same place as/with you? Can you please share about your church background? In each church please share:

1. how many years have you attended this church?
2. If your attendance was inconsistent, you attended every week but was not involved, or you attended every week and was very involved? Who are you close friends with at Solid Rock? How much have you studied the subject of giving the first 10% of your gross income to your local church as a sign of Jesus ownership on your life called "tithing" in the Bible? Is this something that you completely understand and practice? Is this something that you partially understand and do not practice? Is this something that you have never studied?

Since you have become a Christian, how often have you obeyed the command in the Bible, to bring the first 10% of your gross income (the tithe) to your local church? The Bible says that when you take the money that belongs to God, that you place yourself under a curse. When under this curse, people continually make wrong decisions because they are out of the will of God.

If you have not been tithing, how much are you aware that one of the root problems of your financial stress may be that you are out of the will of God and that causes you to constantly make wrong decisions? Can you please briefly share about your marriages past or present? Can you please share about what skills, training, or education you have? If you have a resume, please include it in your email reply. Can you please share about what jobs you have had in the past 3 yrs. and how long you were at each of those jobs and what your general pay was? What is your source of income at the present time and how much is that income each month?

On a separate paper, please write IN DETAIL, your monthly budget- to the best of your ability. Can you please share about your Extended family? In each case, please share:

1. where they currently live
2. your current relationship with them
3. have they helped you financially in the past?
4. are they willing to help you financially now?
